

ELITECRAFT TECH

SUMMARY

At CraftTech Solutions, I spearheaded full-stack development, notably enhancing API efficiency with Node.js and NestJS, and crafting responsive UIs that elevated customer satisfaction. My expertise in React and collaborative prowess significantly contributed to timely project deliveries, showcasing a blend of technical acumen and team synergy.

EXPERIENCE

Fullstack Developer

CraftTech Solutions | March 2022 - Current

- Architected robust backend services with Node.js and NestJS, improving API response times.
- Collaborated in a cross-functional team to deliver projects on time, achieving an increase in customer satisfaction.
- Designed responsive UIs, implemented Tailwind CSS, Vanilla CSS for faster UI design, and JavaScript, optimizing user experience across devices.
- Led backend development with Node.js and NestJS, ensuring high availability and security for APIs.
- Built and maintained complex backend systems, including RESTful and GraphQL APIs, ensuring high availability and optimal performance.
- Collaborated with UI/UX teams to create visually appealing, user-centric designs.
